survey standards				
survey process				
your role in the survey process				

services are moved from depts to the bedside i.e. x-ray/lab/physical therapy
 RN coordinates all care from admission to discharge

polices & procedures, interview staff, observe care, check cleanliness & safety, all CNAs?
 surveyor observes facility, talks to residents & staff, watches care being given
 quality care, protect rights, keep safe (you and resident), professional, ethical, follow polices

Chapter 1 - Intro to hospitals & nursing health	Never heard of it	Have heard this word	Think I know something	Can explain it
