

Chapter 12	Preventing Infection
VRE	
SARS	
TB	
PPE on in what order	
PPE off in what order	
OSHA	
OPIM	
MRSA	
MDRO	
HIV	
HBV	
HAI	
CDC	
AIIR	
antibiotic	
asepsis	
biohazardous waster	
carrier	
clean technique	
communicable disease	
contamination	
disinfection	
infection	
infection control	
microbe	
microorganism	
pathogen	
non pathogen	
sterile	
sterilization	
list 6-8 signs of infection	
list chain of infection	
list 6 methods of transmission	
which faucet do you turn on 1st when handwashing?	

which faucet do you turn off 1st? how long should you wash your hands? most important part of handwashing?	
when can you use hand sanitizer?	
when must you wash your hands? what are standard precautions? what are blood borne pathogen standards?
